

Reporting from the Annual Survey 2014

1 Summary

This is the first report from ALT's new Annual Survey launched in December 2014. This survey was primarily for ALT members (individual or at an organisation which is an organisational member) it could however also be filled in by others, perhaps those interested in taking out membership. The purpose of this survey is to engage with ALT members to:

- ◇ Help map the ALT strategy to practice within our community in order to better meet and represent our members' needs;
- ◇ Show how Learning Technology is used across sectors;
- ◇ Understand current and future practice.

ALT's charitable objective is *"to advance education through increasing, exploring and disseminating knowledge in the field of learning technology for the benefit of the general public"*, see the 2014-2017 ALT strategy <http://repository.alt.ac.uk/2330>. We use the results of this survey to inform the work of ALT and the way in which we represent our members.

Analysis of the survey responses indicates a number of areas ALT should continue to support and develop. Priorities for the membership are **'Intelligent use of learning technology'** and **'Research and practice'**, aligned to this is the value placed by respondent's on by communication via the ALT Newsletter/News, social media and Research in Learning Technology. We plan to continue to develop these further in 2015 and continue the promotion of the **#altc** hashtag as another way for our community to 'get connected'¹. It will also be important in 2015 to explore how the existing communication practices of ALT can be strengthened.

The survey also reveals **'Data and Analytics'** and **'Open Education'** are areas where the majority of respondents are finding are becoming increasingly important. As such our community may benefit from development opportunities ALT can provide. The survey is also a reminder that ALT has an essential role in enabling members to develop research and practice in areas which might be considered as minority interest. For example whilst the majority of respondents didn't indicate areas such as **'Digital and Open Badges'**, and **'Game Based Learning'** as important there are still members who consider these areas are very significant and becoming increasingly valuable and as such ALT will continue to better support these groups within our community.

Whilst ALT has conducted previous surveys of ALT membership this is the first iteration in this form. ALT has committed to surveying the sector on an annual basis, refining the core question set (see Appendix) but trying to preserve an opportunity for longitudinal analysis.

Both this report and the anonymised survey data have been released under a Creative Commons Attribution 4.0 Licence and are available to download from <http://repository.alt.ac.uk/2358>

1.1 Key points

- ◇ The survey received 249 responses 83% (n. 207) from ALT Members (50:50 gender split). 80% (n. 207) of respondent's reported as working for a university or HE provider.
- ◇ Ranked by areas respondents were important or very important:
 - top priorities are:
 - online/blended delivery;
 - course design;
 - content management systems;
 - electronic assessment; and
 - web conferencing and virtual classrooms
 - increasing priorities include:
 - data and analytics;
 - open education practices, policy and resources; and
 - digital and open badges.
 - decreasing priorities include:
 - blogs; and
 - digital repositories.
- ◇ Respondent's agreed or strongly agreed that the key enablers and drivers for the use of learning technology were:
 - engagement from students and learners;
 - colleagues' knowledge and expertise;
 - colleagues' commitment; and
 - dedicated time.
- ◇ Ranked by 1st and 2nd order respondent's identified ALT's aims in order of priority as:
 1. Intelligent use of learning technology
 2. Research and practice
 3. Leadership and professional development
 4. Strategy and policy
 5. Communicating
 6. Representing members
- ◇ Respondents to the survey who were ALT members had high awareness of ALT activity such as the newsletter and conference.
- ◇ 40% (n. 100) of the respondent's reported being involved in at least one of ALT's SIG/RIGs
- ◇ Popular ALT SIG/RIGs participated in by respondent's were:
 - MOOC SIG
 - ALT Scotland
 - OER SIG; and
 - M25 SIG

2 Responses

The following section of this report gives a summary of the survey responses. The section has been broken into four parts grouping responses around:

- ◇ Current and future important areas of work;
- ◇ Enablers and drivers of learning technology;
- ◇ Engagement with ALT; and
- ◇ Who responded to the survey

2.1 Current and future important areas of work

The graph highlights the growth in areas marked as very important for the future including 'Data and Analytics', and 'Digital and Open Badges'.

2.2 Enablers and drivers of learning technology

2. Would you describe the following as an enabler/driver for you in your use of Learning Technology?

Figure 2.5 Ranking of enablers and drivers based on 5 point Likert responses to areas respondent's agreed or strongly agreed. The survey did not define who colleagues were. If respondents considered this definition to extended beyond colleagues within their institution it would underline ALT's important role in supporting and stimulating the development of technology in learning and teaching.

2.3 Engagement with ALT

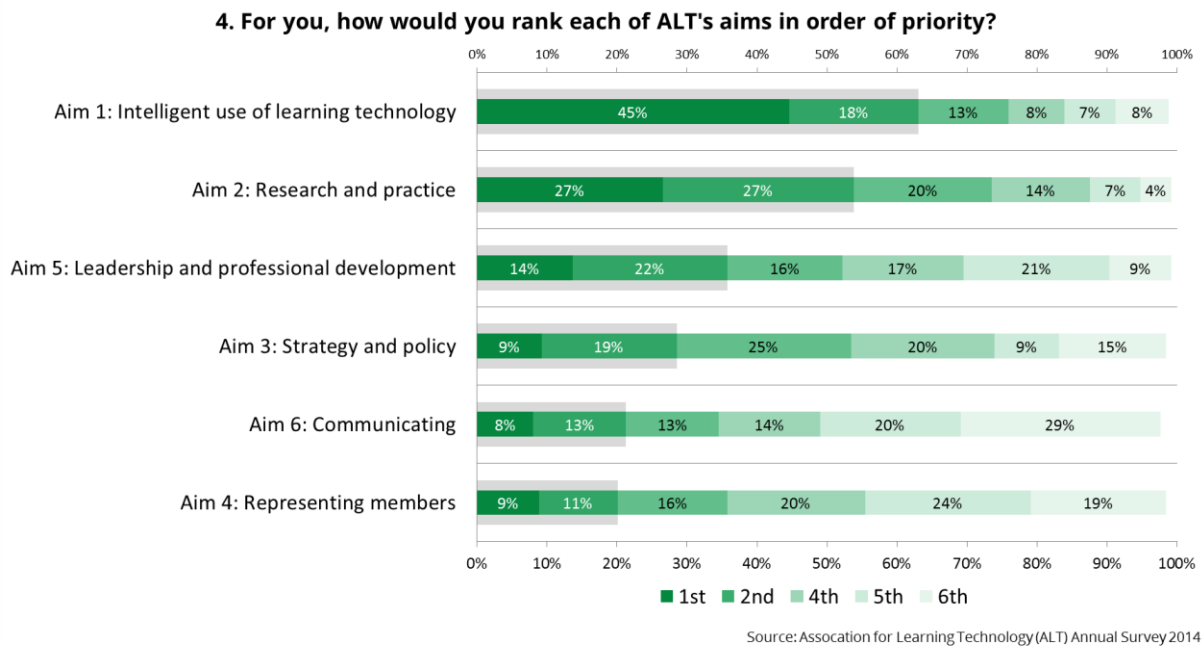

Figure 2.6 Respondent's ranking of ALT aims in order of priority. Aims are ranked on 1st and 2nd order selections.

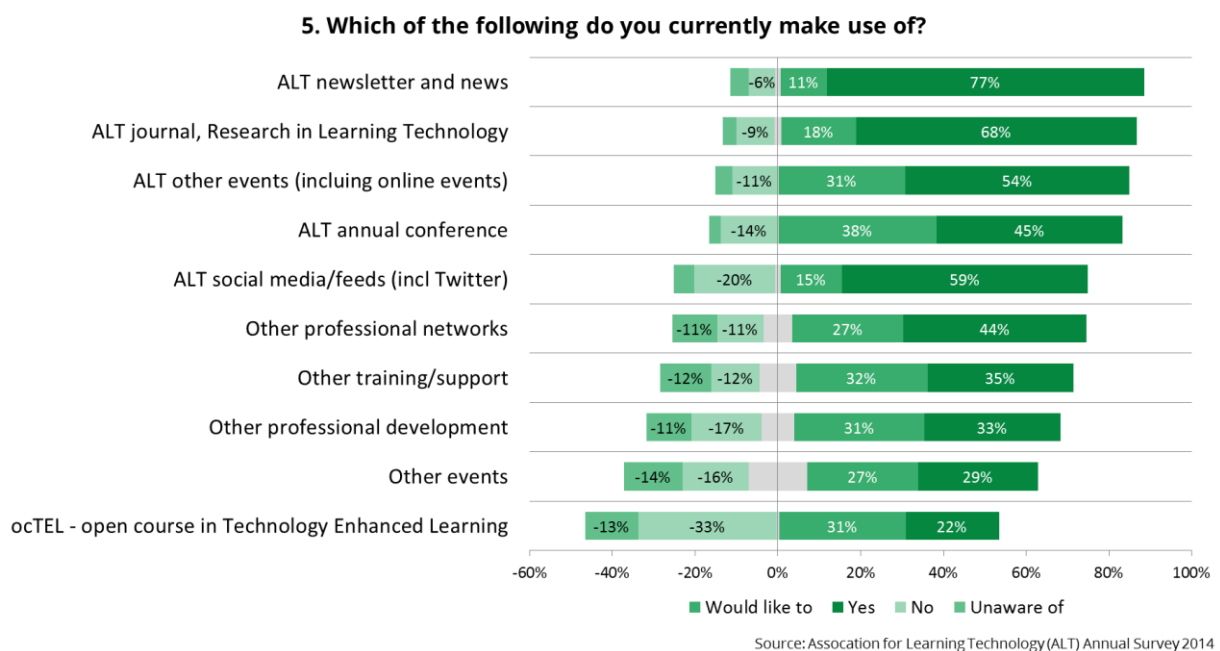

Figure 2.7 The areas respondent's already or would like to make use of ALT activities. The graph highlights that the majority of respondents were aware of ALT's activities even if they did not make use of them.

5. Which of the following do you currently make use of (members only)?

	ocTEL - open course in Technology Enhanced Learning	Other events	Other professional development	Other training/support	Other professional networks	ALT social media/feeds (incl Twitter)	ALT annual conference	ALT other events (including online events)	ALT journal, Research in Learning Technology	ALT newsletter and news

Figure 2.8 The areas respondents who indicated they were ALT members are already or would like to make use of ALT activities. The graph highlights that the majority of respondents were aware of ALT's activities. The survey omitted a question relating to the ALT-MEMBERS mailing list and this will be addressed in the next iteration of the survey.

ALT Annual Survey 2014

Welcome to the ALT Annual Survey 2014. The purpose of this survey is to engage with ALT members to:

- Help map the ALT strategy to practice within our community in order to better meet and represent our members' needs;
- Show how Learning Technology is used across sectors;
- Understand current and future practice.

The survey should take you no more than 10 minutes. This survey is primarily for ALT members (individual or at an organisation which is an organisational member) it can however also be filled in by others, perhaps those interested in taking out membership.

The Association of Learning Technology (ALT) is an independent educational charity. Our objective is "to advance education through increasing, exploring and disseminating knowledge in the field of learning technology for the benefit of the general public", see the 2014-2017 ALT strategy <http://repository.alt.ac.uk/2330> . If you'd like to have a look at what the survey contains before you complete it, you can access a summary overview here <http://goo.gl/ksFL7S>.

We will use the results of this survey to inform the work of ALT and the way in which we represent our members.

All data submitted via this survey will be analysed and shared openly in an anonymised form and handled in accordance with the ALT Privacy Policy <https://www.alt.ac.uk/privacy-policy>.

Thinking now about ALT and what we do

Here are some examples of our strategic aims and what we do to meet them:

Aim 1: Intelligent use of learning technology

- ◇ Lead by example through ALT's own intelligent use of technology
- ◇ Emphasise the key role of pedagogy

Aim 2: Research and practice

- ◇ Develop the annual conference for researchers and practitioners
- ◇ Develop improved ways for the community to network, share and collaborate
- ◇ Exploit the collective wisdom of members through knowledge curation

Aim 3: Strategy and Policy

- ◇ Engage with policy makers and leaders in education across sectors
- ◇ Draw on membership expertise to respond to policy consultations
- ◇ Provide strategic information for member organisations

Aim 4: Representing members

- ◇ Actively engage with policy makers and stakeholders to represent members
- ◇ Strengthen the membership base by reaching out to all sectors

Aim 5: Leadership and professional development

- ◇ Develop the CMALT accreditation scheme and support its community
- ◇ Continue to develop ocTEL, the Open Course in Technology Enhanced Learning
- ◇ Work in partnership with national and international organisations to support and develop leadership
- ◇ Integrate ALT's professional development activities and the accreditation schemes of partner bodies

Aim 6: Communicating

- ◇ Review, rationalise and strengthen the range of ALT publications and communications
- ◇ Define key messages for stakeholders

4. For you, how would you rank each of ALT's aims in order of priority?*
